#### Veiligheidsaanbevelingen

- Preventie P273 Voorkom lozing in het milieu.  
P280 Beschermende handschoenen/beschermende kleding/oog-  
bescherming/gelaatsbescherming dragen.
- Maatregelen P302+P352 BIJ CONTACT MET DE HUID: met veel water en zeep wassen.  
P305+P351+P338 BIJ CONTACT MET DE OGEN: voorzichtig afspoelen met water gedurende  
een aantal minuten; contactlenzen verwijderen, indien mogelijk; blijven spoelen.  
P332+P313 Bij huidirritatie: een arts raadplegen.  
P337+P313 Bij aanhoudende oogirritatie: een arts raadplegen.  
P361 Verontreinigde kleding onmiddellijk uittrekken.  
P391 Gelekte/gemorste stof opruimen.

#### Gevaarlijke bestanddelen die op het etiket vermeld moeten worden:

caryophelene crude  
α-cedrene  
cedrol  
3,7-dimethyl-6-octen-1-ol (dl-citronellol)  
1-propyl-3-methoxy-4-hydroxybenzene  
2,6-dimethyl-7-octen-2-ol  
1,8-cineole  
3,7-dimethyl-2,6-octadien-1-yl-acetate  
2-hexyl-3-phenyl-2-propenal (trans & cis)  
(E)-4-(2,6,6-trimethylcyclohex-1-en-1-yl)-but-3-en-2-one  
7-acetyl-(1,8)-octahydro-1,1,6,7-tetramethylnapthalene  
linalool  
linalyl acetate  
4-tert-butylcyclohexyl acetate  
2-mentha-1,4(8)-diene  
3-octanol, 3,7-dimethyl-  
acetyl cedrene

#### 2.3 Andere gevaren

Deze stof/dit mengsel bevat geen componenten die men kan beschouwen als persistent, bioaccumulerend en toxisch (PBT), of zeer persistent en zeer bioaccumulerend (vPvB) op niveaus van 0,1% of hoger.

Ecologische informatie: Deze stof/dit mengsel bevat geen componenten waarvan wordt aangenomen dat ze hormoonontregelende eigenschappen hebben, volgens REACH artikel 57(f) of de gedelegeerde verordening van de Commissie (EU) 2017/2100 of de verordening van de Commissie (EU) 2018/605 op niveaus van 0,1% of hoger.

#### **4. Eerstehulpmaatregelen**

##### **4.1 Beschrijving van de eerstehulpmaatregelen**

|                        |                                                                                                                                                                                                                                                  |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Algemeen advies        | Buiten de gevaarlijke zone brengen.<br>Dit veiligheidsinformatieblad aan de dienstdoende arts tonen.<br>Het slachtoffer niet alleen laten.                                                                                                       |
| Bij inademing          | Bij bewusteloosheid stabiele zijligging toepassen en medische hulp inroepen.<br>Indien symptomen aanhouden, een arts raadplegen.                                                                                                                 |
| Bij aanraking met huid | Bij aanraking met de huid, goed afspoelen met water.                                                                                                                                                                                             |
| Bij aanraking met ogen | Oog/ogen onmiddellijk met veel water spoelen.<br>Contactlenzen uithalen.<br>Onbeschadigd oog beschermen.<br>Tijdens spoelen ogen goed open houden.<br>Indien oogirritatie aanhoudt een specialist raadplegen.                                    |
| Bij inslikken          | Ademhalingswegen vrijhouden.<br>Geen melk of alcoholische dranken geven.<br>Nooit een bewusteloos persoon laten drinken (of eten).<br>Patient onmiddellijk naar een ziekenhuis brengen.<br>Onmiddellijk braken opwekken en een arts waarschuwen. |

##### **4.2 Belangrijkste acute en uitgestelde symptomen en effecten**

|                |                           |
|----------------|---------------------------|
| Verschijnselen | geen gegevens beschikbaar |
|----------------|---------------------------|

#### **5. Brandbestrijdingsmaatregelen**

##### **5.1 Blusmiddelen**

|                          |                                                                                            |
|--------------------------|--------------------------------------------------------------------------------------------|
| Geschikte blusmiddelen   | Gebruik blusmiddelen die geschikt zijn voor de plaatselijke omstandigheden en de omgeving. |
| Ongeschikte blusmiddelen | Sterke waterstraal                                                                         |

##### **5.2 Speciale gevaren die door de stof of het mengsel worden veroorzaakt**

|                                         |                                                         |
|-----------------------------------------|---------------------------------------------------------|
| Specifieke gevaren bij brandbestrijding | Voorkom wegvloeiën van bluswater in riool of waterloop. |
|-----------------------------------------|---------------------------------------------------------|

##### **5.3 Advies voor brandweelieden**

|                                                      |                                                                                                                                                                                              |
|------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Speciale beschermende uitrusting voor brandweelieden | Draag indien nodig een persluchtmasker bij brandbestrijding.                                                                                                                                 |
| Nadere informatie                                    | Verontreinigd bluswater gescheiden opnemen. Het mag niet naar de riolering aflopen. Verbrandingsresten en verontreinigd bluswater moeten verwijderd worden volgens plaatselijke regelgeving. |

#### **6. Maatregelen bij het accidenteel vrijkomen van de stof of het mengsel**

##### **6.1 Persoonlijke voorzorgsmaatregelen, beschermde uitrusting en noodprocedures**

|                                   |                                              |
|-----------------------------------|----------------------------------------------|
| Persoonlijke voorzorgsmaatregelen | Persoonlijke beschermingsmiddelen gebruiken. |
|-----------------------------------|----------------------------------------------|

##### **6.2 Milieuvoorzorgsmaatregelen**

|                            |                                                                                                                                                                                                              |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Milieuvoorzorgsmaatregelen | Voorkom dat product in riolering komt.<br>Voorkom verder lekken en morsen indien dit veilig is.<br>Als het product rivieren, meren of riolen vervuult de respectievelijke autoriteiten op de hoogte stellen. |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

##### **6.3 Insluitings- en reinigingsmethoden en -materiaal**

|                    |                                                                                                                                                                                          |
|--------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reinigingsmethoden | Opnemen in inert absorberend materiaal (b.v. zand, kiezelgur, zuurbindingsmiddel, universeel bindingsmiddel, zaagsel).<br>In geschikte en gesloten containers bewaren voor verwijdering. |
|--------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

##### **6.4 Verwijzing naar andere rubrieken**

niet van toepassing

#### **7. Hantering en opslag**

|         |                |                             |
|---------|----------------|-----------------------------|
| Product | <b>1249.01</b> | <b>PARFUM SANDELWOOD</b>    |
| Versie  | 12.0           | Herzieningsdatum 28-02-2025 |

**9.2 Overige informatie** niet van toepassing

## **10. Stabiliteit en reactiviteit**

**10.1 Reactiviteit** geen

**10.2 Chemische stabiliteit** Het product is chemisch stabiel.

### **10.3 Mogelijke gevaarlijke reacties**

Gevaarlijke reacties Geen ontleding indien bewaard en toegepast zoals aangegeven.

### **10.4 Te vermijden omstandigheden**

Te vermijden omstandigheden geen gegevens beschikbaar

### **10.5 Chemisch op elkaar inwerkende materialen**

Te vermijden materialen geen gegevens beschikbaar

### **10.6 Gevaarlijke ontledingsproducten**

Gevaarlijke ontledingsproducten  
geen gegevens beschikbaar  
Thermische ontleding geen gegevens beschikbaar

## **11. Toxicologische informatie**

### **11.1 Informatie over gevarenklassen als omschreven in Verordening (EG) nr. 1272/2008**

|                                                                   |                                                                                     |
|-------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| <b>Acute orale toxiciteit</b>                                     | Acute toxiciteitsschattingen Dosis mg/kg : 3174                                     |
| Methode                                                           | Calculatiemethode                                                                   |
| <b>Acute toxiciteit inademing</b>                                 | Acute toxiciteitsschattingen Dosis mg/ltr:                                          |
| Methode                                                           | Calculatiemethode Over het product zelf zijn geen gegevens beschikbaar.             |
| <b>Acute dermale toxiciteit</b>                                   | Acute toxiciteitsschattingen Dosis mg/kg : 2894                                     |
| Methode                                                           | Calculatiemethode                                                                   |

**Doelorgaan systemisch toxicum - Herhaalde blootstelling**

Doelorgaan systemisch toxicum - Herhaalde blootstelling

Over het product zelf zijn geen gegevens beschikbaar.

**Doelorgaan systemisch toxicum - Herhaalde blootstelling**

**Gevaar bij inademing**

Aspiratiesgiftigheid

Over het product zelf zijn geen gegevens beschikbaar.

**Foto-toxiciteit**

Foto-toxiciteit

Over het product zelf zijn geen gegevens beschikbaar.

**11.2 Informatie over andere gevaren**

**Hormoonontregelende eigenschappen**

**Beoordeling**

Deze stof/dit mengsel bevat geen componenten waarvan wordt aangenomen dat ze hormoonontregelende eigenschappen hebben, volgens REACH artikel 57(f) of de gedelegeerde verordening van de Commissie (EU) 2017/2100 of de verordening van de Commissie (EU) 2018/605 op niveaus van 0,1% of hoger.

**Overige informatie**

geen gegevens beschikbaar

**12. Ecologische informatie**

**12.1 Toxiciteit**

Toxiciteit voor vissen

geen gegevens beschikbaar

Toxiciteit voor dafnia's en andere ongewervelde waterdieren.

geen gegevens beschikbaar

Toxiciteit voor algen

geen gegevens beschikbaar

**12.2 Persistentie en afbreekbaarheid**

Biologische afbreekbaarheid

Biodegradability BO (Biodegradable Organics) % 95,8

**12.3 Bioaccumulatie**

Bioaccumulatie

geen gegevens beschikbaar

**12.4 Mobiliteit in de bodem**

Mobiliteit

geen gegevens beschikbaar

Distributie in en tussen milieucapartimenten

geen gegevens beschikbaar

**Aanvullend advies**

**Afbraak en verspreiding in het milieu**

geen gegevens beschikbaar

**Fysisch-chemische verwijderbaarheid**

geen gegevens beschikbaar

**12.5 Resultaten van PBT- en zPzB-beoordeling**

**Beoordeling**

Deze stof/dit mengsel bevat geen componenten die men kan beschouwen als persistent, bioaccumulerend en toxisch (PBT), of zeer persistent en zeer bioaccumulerend (vPvB) op niveaus van 0,1% of hoger.

**12.6 Hormoonontregelende eigenschappen**

**Beoordeling**

Deze stof/dit mengsel bevat geen componenten waarvan wordt aangenomen dat ze hormoonontregelende eigenschappen hebben, volgens REACH artikel 57(f) of de gedelegeerde verordening van de Commissie (EU) 2017/2100 of de verordening van de Commissie (EU) 2018/605 op niveaus van 0,1% of hoger.

**12.7 Andere schadelijke effecten**

**Aanvullende ecologische informatie**  
Bij onvakkundige omgang of verwijdering van deze stof bestaat gevaar voor schade aan het milieu.

### 13. Instructies voor verwijdering

#### 13.1 Afvalverwerkingsmethoden

Product Het product mag niet wegvloeien in riool, waterstroom of bodem.  
Verontreinig vijvers, waterwegen en sloten niet met chemische stof of gebruikte verpakking.  
Overbrengen naar vergunninghoudend verwijderingsbedrijf.

Verontreinigde verpakking Achtergebleven restant verwijderen.

Verwijderen als ongebruikt product  
Lege containers niet hergebruiken. Opruimen volgens lokale regels.

### 14. Informatie met betrekking tot het vervoer

#### ADR/RID/ADN

VNnummer UN3082 (Milieugevaarlijke vloeistof N.E.G.)

Omschrijving van de goederen ( 7-acetyl-(1,8)-octahydro-1,1,6,7-tetramethylnapthalene & (E)-4-(2,6,6-trimethylcyclohex-1-en-1-yl)-but-3-en-2-one )

Transportgevarenklasse(n) en Verpakkingsgroep 9 PG III

Milieugevaarlijk ja

Extra informatie Bijzondere bepaling 375: dit product is niet onderworpen aan de overige bepalingen van het ADR mits het wordt vervoerd in groottes van ≤5L of ≤5kg, op voorwaarde dat de verpakkingen voldoen aan de algemene bepalingen van 4.1.1.1, 4.1.1.2 en 4.1.1.4 tot 4.1.1.8.

#### IATA/ICAO

VNnummer UN3082 (Milieugevaarlijke vloeistof N.E.G.)

Omschrijving van de goederen ( 7-acetyl-(1,8)-octahydro-1,1,6,7-tetramethylnapthalene & (E)-4-(2,6,6-trimethylcyclohex-1-en-1-yl)-but-3-en-2-one )

Transportgevarenklasse(n) en Verpakkingsgroep 9 PG III

Milieugevaarlijk ja

Extra informatie Bijzondere bepaling A197: dit product is niet onderworpen aan de overige bepalingen van IATA mits het wordt vervoerd in groottes van ≤5L of ≤5kg, op voorwaarde dat de verpakkingen voldoen aan de algemene bepalingen van 5.0.2.4.1, 5.0.2.6.1.1 en 5.0.2.8.

#### IMDG

VNnummer UN3082 (Milieugevaarlijke vloeistof N.E.G.)

Omschrijving van de goederen ( 7-acetyl-(1,8)-octahydro-1,1,6,7-tetramethylnapthalene & (E)-4-(2,6,6-trimethylcyclohex-1-en-1-yl)-but-3-en-2-one )

Transportgevarenklasse(n) en Verpakkingsgroep 9 PG III

Marine verontreiniging ja

Extra informatie IMDG 2.10.2.7: dit product is niet onderworpen aan de overige bepalingen van het IMDG mits het wordt vervoerd in groottes van ≤5L of ≤5kg, op voorwaarde dat de verpakkingen voldoen aan de algemene bepalingen van 4.1.1.1, 4.1.1.2 en 4.1.1.4 tot 4.1.1.8.

### 15. Regelgeving

#### 15.1 Specifieke veiligheids-, gezondheids- en milieureglementen en -wetgeving voor de stof of het mengsel

**15.2 Chemischeveiligheidsbeoordeling**

Een chemische veiligheidsbeoordeling is niet nodig voor deze stof

**16. Overige informatie**

**Volledige tekst van H-zinnen waarnaar in rubrieken 2 en 3 wordt verwezen**

H226 Ontvlambare vloeistof en damp.  
H302 Schadelijk bij inslikken.  
H304 Kan dodelijk zijn als de stof bij inslikken in de luchtwegen terechtkomt.  
H315 Veroorzaakt huidirritatie.  
H317 Kan een allergische huidreactie veroorzaken.  
H318 Veroorzaakt ernstig oogletsel.  
H319 Veroorzaakt ernstige oogirritatie.  
H335 Kan irritatie van de luchtwegen veroorzaken.  
H336 Kan slaperigheid of duizeligheid veroorzaken.  
H361 Kan mogelijks de vruchtbaarheid of het ongeboren kind schaden .  
H400 Zeer giftig voor in het water levende organismen.  
H410 Zeer giftig voor in het water levende organismen, met langdurige gevolgen.  
H411 Giftig voor in het water levende organismen, met langdurige gevolgen.  
H412 Schadelijk voor in het water levende organismen, met langdurige gevolgen.

De informatie in dit Veiligheidsinformatieblad is naar ons beste weten correct en in overeenstemming met de algemene wetenschappelijke- en technische kennis ten tijde van uitgifte. SELLACQ-Holland BV kan echter geen aansprakelijkheid accepteren voor een verlies, schade of letsel resulterend uit het gebruik.

Bij het samenstellen van dit veiligheidsblad hebben wij alle geeignende toepassingen van het produkt die ons bekend zijn in aanmerking genomen. Iedere gebruiker van dit produkt dient ons bij elke nieuwe of ongebruikelijke toepassing te raadplegen. Wij maken u er op attent dat iedere tussenpersoon / leverancier verantwoordelijk is dat dit veiligheidsblad aan de eindgebruiker wordt doorgegeven.

Indien de eindgebruiker het gewenst acht dat dit Veiligheidsinformatieblad rechtstreeks aan hem of haar wordt toegezonden, zullen wij, indien wij hieromtrent worden geïnformeerd, dit verzorgen.

Fragrance ingredients restricted as potential allergens in the extended list amending ANNEX III of

On 27 July 2023, the EU Regulation extending the list of fragrance allergens to be labelled in cosmetic products was published in the Official Journal of the European Union.

The Regulation has updated Annex III of the Cosmetic products Regulation with 56 new fragrance ingredients for which the presence should be indicated on the label in case of being above the established thresholds for leave-on and rinse off products (0,001 and 0,01%).

The regulation enters into force on 16 August 2023, with a transition period of 3 years for new products and 5 years for existing products.

With kind regards,

**SELLACQ-Holland BV**

This certificate is generated by calculation based on data for ingredients. The data in this document has been prepared by SELLACQ-Holland BV in accordance with our internal protocols and procedures in order to evaluate characteristics and/or performance. Detection limit for calculation is ten ppm. The information contained herein is, to the best of our knowledge, true and accurate at the time it is given. It is provided to Customer for its information and internal use only. SELLACQ-Holland BV is not liable for any damages that may result from the misuse of the data. It is Customer's responsibility to perform its own evaluations on the material evaluated herein, including with respect to end-use applications. Any Customer product, marketing or other claims are Customer's sole responsibility. A concentration represented by "0,000" corresponds to <10 ppm.

## STATEMENT

**Code** 1249.01

**PARFUM SANDELWOOD**

19-09-2025

To whom it concerns

### Musk statement

product 1249.01 PARFUM SANDELWOOD contains the following ingredients:

0,00 % (Musk) Nitromusk  
0,00 % (Musk) Polycyclic musk  
0,00 % (Musk) Macrocyclic musk

### Vegan declaration

We have reviewed this product and declare that, to the best of our knowledge, it is suitable for the Vegan diet. Vegan products do not contain animal ingredients (mammalian, poultry, fish, shellfish, mollusk, insects) as well as ingredients derived from animal such as dairy, eggs and bee products or animal enzymes.

### GMO directly added

(Declaration Limit: 0,01%)

According to the formulation – this fragrance oil does not contain ingredients produced on the basis of genetically modified organisms.

### Animal Testing

We herewith confirm that our fragrances have not been the subject of animal testing by or on behalf of our company.

### BSE / TSE

(Declaration Limit: 0,01%)

Our fragrances are mixtures of natural (plant origin) and synthetic products. To the best of our knowledge it does not contain any ingredients which may be suspected of BSE / TSE.

### Heavy metals

SELLACQ-Holland does not use any heavy metal for direct addition into fragrances, bases and ingredients. SELLACQ-Holland does not undertake routine analysis on heavy metals and the potential presence of heavy metals in ingredient is of the order of magnitude of unavoidable traces. Based on our experience and to the best of our knowledge, the total quantity of heavy metals that may be present in this product are significantly below the limits defined in applicable regulations.

### Nanomaterials

We certify, to the best of our knowledge, that this product does not contain any ingredient defined as a nanomaterial according to the article 2 of Cosmetic Regulation 1223/2009.

“Nanomaterial” means an insoluble or biopersistent and intentionally manufactured material with one or more external dimensions, or an internal structure, on the scale from 1 to 100nm.

| SELLACQ-Holland Certificate | CU-RSPO SCC-867028 |
| No. Supply Chain Model      | Mass Balance       |
| Certificate Start Date      | 16 October 2019    |

### HICC (Lyril), atranol and chloratranol

Please note that Commission Regulation (EU) 2017/1410 of 2 August 2017 amending Annexes II and III to Regulation (EC) No 1223/2009 of the European Parliament and of the Council on cosmetic products has been published in the Official Journal of August 3rd, 2017.

HICC, Atranol and chloratranol have been added to Annex II of the Cosmetic Products Regulation (list of substances prohibited in cosmetic products) with the entries 1380, 1381 and 1382:

- 3-(4-Hydroxy-4-methylpentyl) cyclohex-3-ene-1-carbaldehyde [CAS# 51414-25-6]
- 4-(4-Hydroxy-4-methylpentyl) cyclohex-3-ene-1-carbaldehyde [CAS# 31906-04-4]
- Atranol [CAS# 526-37-4]
- chloratranol [CAS# 57074-21-2]

Commission Regulation (EU) 2017/1410 also deletes the Annex III entry (79) for HICC with application from 23rd August 2021.

The presence of atranol and chloratranol, being natural components of oak tree moss and treemoss extracts<sup>1</sup>, is banned above technically unavoidable traces in good manufacturing practice. As purity requirements for both moss extracts have been established in IFRA Standards since 2009, all products on shelves should be compliant by the entry into force of this regulation.

The transitional periods are the following:

- From 23 August 2019, cosmetic products containing one or more of these substances shall not be placed on the European Union market.
- From 23 August 2021, cosmetic products containing one or more of these substances shall not be made available on the Union market.

## STATEMENT

Code 1249.01

PARFUM SANDELWOOD

19-09-2025

### BMHCA (Lilial) ban in cosmetics

The 15th ATP1 to the EU CLP2 regulation, COMMISSION DELEGATED REGULATION (EU) 2020/1182, has been published on August 11th, 2020, in the Official Journal and will apply from 1 March 2022. It lists BMHCA (Lilial) on Annex VI as toxic for Reproduction category 1B (Rep. 1B, H360Fd).

Subsequently, BMHCA (Lilial) will be banned for the use in cosmetic products in the EU. The EU Commission will include this substance in the CMR Omnibus Act IV for integration into Annex II (list of prohibited substances in cosmetics) of the EU Cosmetics Regulation.

This means that by 1 March 2022 the use of BMHCA (lilial) in cosmetic products (new and existing) will be banned in the EU. All products containing BMHCA (lilial) should be off the shelf by this date.

It is important to highlight that the above-mentioned regulatory events and activities are limited to the EU. The use of BMHCA in cosmetic products outside the EU remains unaffected.

### BMHCA (Lilial) restriction in household products (e.g. detergents, household and cleaning products, air-fresheners)

Please be informed that the ban of BMHCA also imposes a restriction to the placing on the market and use of BMHCA in household products for consumers and professional users.

The restriction, in practice, implies the following:

- **BMHCA cannot be placed on the market or used**, in products sold to the general public (consumers) **when its concentration is equal or above** the generic concentration limit specified in part 3 of Annex I of the EU CLP - i.e. **0.3%** (final product (mixture) is not classified as Rep 1B).
- **BMHCA may be placed on the market and used in products sold for professional use** above the classification concentration limit of **equal or above 0.3%** (product is classified as Rep 1B). In this case the packaging of such substances and mixtures has to be **marked** visibly, legibly and indelibly as **'Restricted to professional users'**.

This restriction applies to BMHCA as such, as constituent of other substances, or, in mixtures.

If the same applicability date as the EU CLP harmonized classification will be used, this would mean that from 1 March 2022 onward, consumer products containing 0.3% or more of BMHCA can no longer be sold in the EU.

0,000 % • BMHCA (Lilial)[CAS# 80-54-6]

### Karanal on the EU – REACH Authorization List

- Karanal [CAS# 117933-89-8] - No use (delisted from pallet 17th July, 2023)

We would like to inform you that, with the inclusion of Karanal (CAS 117933-89-8) on the EU REACH Authorization List, SELLACQ-Holland has defined a reformulation plan which consists of replacing Karanal with a combination of ingredients that will give the same olfactive character, performance and stability.

SELLACQ-Holland ensures that product safety and regulatory compliance are not impacted by the formula change. The materials used for the reformulation have been thoroughly reviewed and specifically selected based on their regulatory and safety profile so that the reformulation formula shows no negative impact on the final classification/safety of the formula or the allergen levels. Thus the modified formula is safe for consumer use and regulatory compliant.

The commercial name and code of the reformulated fragrance will not change.

The placing on the market and the use of Karanal (including the use in cosmetic products) will be prohibited from 27 August 2023 onwards. Fragrance batches produced after 27 August 2023 will be reformulated and free from Karanal.

This does not impact the use of Karanal in other regions outside of the EU. Customers outside of Europe may be impacted if their products are manufactured or marketed in Europe. If you have any questions, please contact your client support representative.

### REACH

We, SELLACQ-Holland, declare, to the best of our knowledge, that we are in compliance with our obligations according to the REACH Regulation (EC) No. 1907/2006 and its modifications and updates for the substances contained in the fragrance compound(s)/ingredient(s) delivered to customer.

All substances supplied by SELLACQ-Holland, as well as substances contained in our mixtures are either:

- Registered (SELLACQ-Holland act as a downstream user as defined by the REACH Regulation), or
- Exempted of Registration

Any substances out of scope e.g. exempted substances or substances below the threshold for registration under REACH (<1tpa) are allowed to be used in products without registration in the EU.

The above mentioned information is continuously checked by us and also demanded to our suppliers. We also continue to monitor the ongoing amendments of the Regulation and will update our compliance statement as appropriate.

**Biodegradability BO (Biodegradable Organics) %** 95,8

## STATEMENT

Code 1249.01

**PARFUM SANDELWOOD**

19-09-2025

Please be aware that fragrance compounds are not tested for biodegradability. The biodegradability of a fragrance compound is assured based on data on the components and is assessed by summing the percentage (by weight) of ingredients which are biodegradable. The following criteria have been used to identify "biodegradable" fragrance ingredients used in above mentioned fragrance compound:

1. Biodegradable following internationally accepted OECD/ISO guideline studies accepted by authorities.
  - The tests include OECD 301 series, OECD 310, OECD 302 series and ISO 14593;
  - The pass criterion in these tests is 60-70% within 14 or 28 days (depending on the test and the endpoint measured);
  - If biodegradation has started but a plateau has not been reached, the test may be prolonged (typically up to 60 days).
2. Use of simple structural read-across from known biodegradable ingredients to structurally very close analogues that are therefore fully expected also to be biodegradable.
3. Natural complex substances (e.g. essential oils) are assessed based on either test data for the NCS itself or data for the constituents.

### **Publication of final Regulation of Methyl-N-methylantranilate in cosmetic products in Europe**

We would like to inform you that Commission Regulation (EU) 2022/135 has been published in the Official Journal of the European Union on January 31, 2022. It amends Regulation (EC) No 1223/2009 of the European Parliament and of the Council as regards the use of Methyl-N-methylantranilate in cosmetic products.

It sets maximum use levels of 0.1% in leave-on products and 0.2% in rinse-off products. Please note that the material should not be used in sunscreen products and products marketed for exposure to natural or artificial UV light.

From 21 August 2022 cosmetic products containing the substance and not complying with the restrictions shall no longer be placed on the EU market (i.e. new products). From 21 November 2022 the products shall not be made available (i.e. existing products) on the Union market.

**0,019 % Methyl-N-methylantranilate**

### **Benzophenone - Publication of the 18th ATP to the EU CLP Regulation**

We would like to inform you that the 18th ATP to the EU CLP regulation, (COMMISSION DELEGATED REGULATION (EU) 2022/692) was published on May 3rd, 2022 and will enter into force on the twentieth day following that of its publication in the Official Journal of the European Union.

## STATEMENT

**Code** 1249.01

**PARFUM SANDELWOOD**

19-09-2025

The new/revised classifications shall apply as from 1 December 2023.

Please note that index number 606-153-00-5 corresponds to benzophenone (CAS No 119-61-9 / EINECS No 204-337-6) classified as Carcinogenic 1B (H350).

This means that this substance will be restricted in household products and air care products in the EU according to the REACH restriction entry number 28 (see REACH Annex XVII).

Regarding the use of benzophenone in cosmetics, it will be forbidden for this use on 1 December 2023 if no exemption request is submitted according to article 15.2 of the Cosmetics Regulation. This will happen through the publication of a CMR Omnibus to the EU Cosmetics Regulation.

**0,000 % Benzophenone**

### SCCS/1656/23 Preliminary Opinion

**Benzyl Salicylate (CAS No. 118-58-1, EC No. 204-262-9)**

Based on the data provided and assessed and taking under consideration the concerns related to potential endocrine disrupting properties, the SCCS considers Benzyl Salicylate safe when used up to the maximum concentrations provided in Table 1 of this Opinion.

Table 1: Maximum use concentrations of benzyl salicylate in cosmetic products

| Type of cosmetic product exposure                                         | Maximum % concentration used |
|---------------------------------------------------------------------------|------------------------------|
| Hydroalcoholic-based fragrances (spray and non-spray)                     | 4                            |
| Rinse-off skin & hair products (except rinse off body products)           | 0.5                          |
| Rinse off body products                                                   | 1.3                          |
| Leave on skin & hair products (non-spray/non-aerosol)(except body lotion) | 0.5                          |
| Leave on hair products (spray/aerosol)                                    | 0.5                          |

### Hexyl Salicylate (CAS No. 6259-76-3)

#### Publication of the 22nd ATP to the EU CLP Regulation

We would like to inform you that the 22nd ATP to the EU CLP regulation, (COMMISSION DELEGATED REGULATION (EU) 2024/2564) was published on 30 September 2024, in the Official Journal of the European Union, listing Hexyl Salicylate (HS) under Index number 607-772-00-3 with Repr. 2 / H361d and Skin Sens. 1 / H317 classifications

An SCCS dossier was submitted to be able to continue using this ingredient in cosmetic products. A final SCCS Opinion is available for adults and children equal or above 3 years old, and a preliminary Opinion on children below 3 years of age is being finalized.

On the basis of theses 2 Opinions and following the usual procedure, the European Commission will prepare the CMR Omnibus Regulation, and the use of Hexyl Salicylate in cosmetic products will need to comply with the restrictions laid down in Annex III of the Cosmetic Products Regulation. These restrictions will apply on the same date as the application of the harmonized classification, which is 1 May 2026.

#### SCCS/1668/24 Final Opinion on Hexyl Salicylate (CAS/EC No. 6259-76-3/228-408-6)

Based on the assessment of data provided, given the CMR Cat. 2 classification (Annex VI EC/1272/2008)) and taking into consideration all toxicological endpoints, including potential endocrine disrupting effects, the SCCS considers Hexyl Salicylate safe for children up to 3 years old when used up to the maximum concentrations as below:

- \* 0.1 % (w/w) for shower gel, hand soap, shampoo, hair conditioner, body lotion, face cream, hand cream, lipstick/lip balm, fragrance products
- \* 0.001% (w/w) for toothpaste.

#### SCCS/1658/23 Final Opinion on Hexyl Salicylate (CAS/EC No. 6259-76-3/228-408-6)

## STATEMENT

**PARFUM SANDELWOOD**

19-09-2025

Based on the assessment of data provided and taking into consideration the concerns related to potential endocrine disrupting properties, the SCCS considers Hexyl Salicylate safe when used up to the maximum concentrations as provided in Table 1 of this Opinion.

Table 1: Maximum concentrations of Hexyl Salicylate in cosmetic products as reported in the dossier submission.

| Product type, Body parts             | Maximum concentration |
|--------------------------------------|-----------------------|
| Hydroalcoholic-based fragrances      | 2                     |
| All Rinse-off products               | 0.5                   |
| All Leave on products                | 0.3                   |
| Oral care (toothpaste and mouthwash) | 0.001                 |

**0,000 % Hexyl Salicylate**

**Heliotropine (CAS: 120-57-0) – ECHA RAC adopted their Opinion on the harmonized classification and labelling (CLH) proposal as toxicity to reproduction Category 1B.**

We would like to inform you that the ECHA RAC 69 plenary meeting of June 4, 2024 has adopted the Opinion to classify Heliotropine / piperonal; 1,3-benzodioxole-5-carbaldehyde (CAS: 120-57-0) as follows: skin sensitisation (Skin Sens. 1B; H317) and toxic to reproduction (Repr. 1B; H360FD).

We also remind you of the regulatory consequences under the EU Cosmetic Products Regulation (Regulation (EC) No 1223/2009), i.e., a ban if no exemption is granted, and under the EU REACH Regulation (Annex XVII), i.e., a restriction equal to or above the classification concentration limit of 0.3%, in relation to substances with harmonised classification and labelling as CMR 1B.

**0,000 % Heliotropine**

## STATEMENT

**Code** 1249.01  
**PARFUM SANDELWOOD**

19-09-2025

### **ECHA RAC adopts Opinions on the CLH proposals for seven fragrance ingredients, classifying them as Toxic for Reproduction Category 1B (Repr. 1B)**

We would like to inform you that following the plenary meeting of 27 and 28 November 2024, the ECHA RAC has adopted Opinions classifying seven fragrance ingredients as Repr. 1B; H360FD.

#### **Next steps**

1. The ECHA RAC will now finalise their opinion and publish it on their website on Q1 2025.
2. ECHA will add these substances to the table of ECHA RAC Opinions published in 2025 to be transmitted to the European Commission by the end of 2025.
3. The ECHA list with 2025 ECHA RAC Opinions will be discussed by the CARACAL in 2026.
4. The publication of the ATP amending Annex VI of the EU CLP to add/modify these classifications is also expected to take place in 2026.

We would like to note that the ECHA RAC Opinion classifying tea tree oil (CAS numbers 85085-48-9 and 68647-73-4) as Repr. 1B was published early 2024 and has been added to the CLP 24th ATP to be discussed and published in 2025.

We also remind you of the regulatory consequences under the EU Cosmetic Products Regulation (Regulation (EC) No 1223/2009), i.e., a ban if no exemption is granted, and under the EU REACH Regulation (Annex XVII), i.e., a restriction equal to or above the classification concentration limit of 0.3%, in relation to substances with harmonised classification and labelling as CMR 1B.

| Name                | CAS Number |       |   |

- Deodorizers/maskers not intended for skin contact (e.g. fabric drying machine deodorizers, carpet powders);
- Dry cleaning kits (placed in the dryer);
- Dryer sheets and fabric softener sheets;
- Fuels;
- Insecticides (e.g. mosquito coil, paper, electrical, for clothing) excluding aerosols/sprays;
- Joss sticks or incense sticks;
- Dishwash detergent and deodorizers for machine wash;
- Olfactive board games;
- Paints;
- Plastic articles (excluding toys);
- Scratch and sniff;
- Scent pack;
- Scent delivery system (using dry air technology);
- Shoe polishes;
- Rim blocks (Toilet);
- Toilet gel;
- Scent beads.

## IFRA CONFORMITY CERTIFICATE 51st Amendment

Code **1249.01**

**PARFUM SANDELWOOD**

19-09-2025

### \*\*\*IFRA 51st AMENDMENT\*\*\*

On June 30th 2023, IFRA has issued the 51st Amendment to its Standards for the safe use of fragrance ingredients.

Beginning with the 49th Amendment, IFRA Standards reflect the introduction of several improvements to the risk assessment methodology. These improvements specifically relate to the revised methodology of Quantitative Risk Assessment for fragrance ingredients for dermal sensitization (hereafter QRA2) and a new way to assess systemic toxicity based on an aggregate exposure model.

The main impact relates to the identification of acceptable levels of fragrance ingredients in different product types and their management, on a practical basis, through grouping distinctive product types into product categories with specific limitations.

The applicable timelines for the 51st Amendment are as follows. These timelines refer to mixtures of fragrance ingredients (formulas) and not to finished consumer product(s).

|                                                                                 | Date for Standards entering into force for new creations           | Date for Standards entering into force for existing creations        |
|---------------------------------------------------------------------------------|--------------------------------------------------------------------|----------------------------------------------------------------------|
| IFRA Standard prohibiting the use of ingredients                                | 2 months after the date of the Notification (i.e. August 30, 2023) | 13 months after the date of the Notification (i.e. July 30, 2024)    |
| IFRA Standards restricting or setting specifications for the use of ingredients | 9 months after the date of the Notification (i.e. March 30, 2024)  | 28 months after the date of the Notification (i.e. October 30, 2025) |

### Note box:

Due to the possible ingestion of small amounts of fragrance ingredients from their use in products in Categories 1 and 6, materials must not only comply with IFRA Standards but must also be recognized as safe as a flavoring ingredient as defined by the IOFI Code of Practice ([www.iofi.org](http://www.iofi.org)). For more details see chapter 1 of the Guidance for the use of IFRA Standards.

- The IFRA Standards are based on safety assessments by the Panel of Experts of the RESEARCH INSTITUTE FOR FRAGRANCE MATERIALS (RIFM) and are enforced by the IFRA Scientific Committee.

The creative perfumery procedures in SELLACQ-Holland Fragrances ensure that Fragrance compounds are composed only of ingredients approved by the safety clearance procedure, and satisfy, according to the current state of knowledge, the safety requirements for the intended application under normal and reasonably foreseeable conditions of use.

For other kinds of application or use at higher concentration levels, a new safety evaluation may be needed; please contact SELLACQ-Holland.

## IFRA CONFORMITY CERTIFICATE 51st Amendment

Code **1249.01**

**PARFUM SANDELWOOD**

19-09-2025

It is the ultimate responsibility of our customer to ensure the safety of the final product (containing this fragrance) by further testing if need be.

**SELLACQ-Holland**
